In a historical move, it is finally all set to replace 29 existing labor laws with the four new labor codes, dealing with 'wages', 'social security, 'industrial relations, and 'occupational safety, with an objective to rationalize, consolidate and simplify complex labour legislations. The Occupational Safety, Health, and Working Conditions Code, 2020 is a code to consolidate and amend the laws regulating the Occupational safety and health and working conditions of the persons employed in an establishment.
